

## REMARKS

Reconsideration of this application, as amended, is respectfully requested.

The foregoing amendments, all of which are supported by the specification as filed, obviate the new grounds of rejection raised in the decision on appeal. In particular, the claims have been amended to recite statutory processes under 35 USC 101 by tying said processes to a particular computer system (in the case of claim 1) or processor (in the case of claim 9). The specification has been amended to remove reference to "carrier waves", hence claim 17 recites statutory subject matter.

If there are any additional fees due in connection with this communication, please charge our deposit account 19-3140.
